THERAPEUTIC TAROT TRAINING - Volume 1 -MAJOR ARCANA

Veet Pramad 2020-07 The book "THERAPEUTIC TAROT TRAINING-Volume 1 - MAJOR ARCANA" is a highly didactic treatise that, starting from the basic principles of esotericism, unveils the 78 Arcana. It does not place the objective of the work in divination or in advising on specific matters, but in the self-knowledge and transformation of the human being. It was taking shape from the notes that I had been giving for my students since 1986, so that it is accessible to laymen as very enriching for the initiates. This innovative and progressive work makes the connection between the ancient tradition of the Arcana with modern psychotherapy, also accompanying the paradigm shift that marks the entry into a New Age. With a holistic approach, the meanings of the letters are elaborated through a systematic study of their symbols, present mythology and astrological, numerological and kabbalistic correspondences, showing how all these paths converge towards the same wisdom. Of the various tarots shown, the deck studied in greater depth is that of Aleister Crowley & Frieda Harris, concluded in 1944, cleansed of moralisms and ancient doctrines and therefore more suitable for diving and understanding the psyche of the current human being. MAIN THEMES COVERED: - Study of the 22 Arcana as phases of the growth of human consciousness.- Origins and history of the Tarot.- Presentation of the ritual and THERAPEUTIC READING, created by me resignifying the Celtic Cross. This reading studies: 1- The internal impulses and brakes that the person is feeling at this moment. 2- The crystallized behavior patterns, which block the individual's achievement. 3- Children's programming. 4- The Voice of the Essence. 5- The working method to remove the behavior patterns and tune into the Essence. 6- The Growth Path or possible evolution of the table if the proposed keys are used.- Extensive study of each Major Arcana from its most universal or archetypal level to the most everyday level; breaking

with the stereotypical and expired vision that some cards had accumulated.- Summary of meanings and key words.- Introduction to the Tree of Life. Finally, the book "TRAINING IN THERAPEUTIC TAROT - Volume 1 - ARCANOS MAYORES" is not just for reading, but also for living. Enjoy. With love. Veet Pramad

The Way of Tarot Alejandro Jodorowsky 2009-11-17 Filmmaker Alejandro Jodorowsky's insights into the Tarot as a spiritual path • Works with the original Marseille Tarot to reveal the roots of Western wisdom • Provides the key to the symbolic language of the Tarot's "nomadic cathedral" • Transforms a simple divination tool into a vehicle for self-realization and healing Alejandro Jodorowsky's profound study of the Tarot, which began in the early 1950s, reveals it to be far more than a simple divination device. The Tarot is first and foremost a powerful instrument of self-knowledge and a representation of the structure of the soul. The Way of Tarot shows that the entire deck is structured like a temple, or a mandala, which is both an image of the world and a representation of the divine. The authors use the sacred art of the original Marseille Tarot--created during a time of religious tolerance in the 11th century--to reconnect with the roots of the Tarot's Western esoteric wisdom. They explain that the Tarot is a "nomadic cathedral" whose parts--the 78 cards or "arcana"--should always be viewed with an awareness of the whole structure. This understanding is essential to fully grasp the Tarot's hermetic symbolism. The authors explore the secret associations behind the hierarchy of the cards and the correspondences between the suits

and energies within human beings. Each description of the Major Arcana includes key word summaries, symbolic meanings, traditional interpretations, and a section where the card speaks for itself. Jodorowsky and Costa then take the art of reading the Tarot to a depth never before possible. Using their work with Tarology, a new psychological approach that uses the symbolism and optical language of the Tarot to create a mirror image of the personality, they offer a powerful tool for self-realization, creativity, and healing.

The Achiever Elisabeth Bennett 2021-09-14 The Enneagram is an ancient personality typology using nine points within a circle to represent nine distinct personality types. This sixty-day devotional is for Enneagram Three, known as the Achiever. This book will help Threes, and those who love them, better understand how God created them and how best to use their unique gifts to serve Him and love others. It features an explanation of what the Enneagram is, how it benefits people, and a full description of what it means to be a Three, including the Achiever's deadly sin and their greatest strength. Some attributes of the Achiever: Motivation: Worth, to be admired and praised for their achievements while adding genuine value to the world. Biggest Fear: Being worthless, a failure, or others finding their efforts lacking. Heart Triad: Along with Twos and Fours, Threes are part of the Heart triad. This means they first process information as feelings before moving on to thinking or doing. Actions from others tend to feel very personal, as information is first processed as feeling before it can be thought through logically. The sixty days of this devotional are split into six ten-day topics that include uniqueness, weakness, strength, pain points, and how Achievers react in times of stress and growth.

The Instinctual Drives and the Enneagram John Luckovich 2021-08

The Enneagram is a profound tool for self-observation and inner work. While there are plenty of resources on the topic, most Enneagram literature is largely limited to entry-level descriptions of the Nine Types. The Instinctual Drives and the Enneagram focuses on a crucial but misunderstood facet of the Enneagram Typology--our "animal"

Instinctual Drives and how they are related to our spiritual nature. While nearly every school of thought on the Enneagram acknowledges the importance and role of the Instinctual Drives, there's a deep lack of understanding what they actually are, the role they play in personality, and most importantly, their implications for inner work. This book achieves, for the first time, a coherent theory of the instinctual drives based in biology, evolution, and developmental psychology, and it paves the way toward a more accurate view of inner work that directly addresses our animal nature. In so doing, it turns our current understanding of the Enneagram on its head by showing that the personality does not exist in parallel with our instinctual drives, but in reaction to them. In other words, instinct comes first - and one's Enneagram type is nothing more or less than a strategy to fulfill instinctual needs. This clarified orientation has important implications

for our spiritual development, self-remembrance, and the transformation of our personhood into a conduit of Essence.
