Read the article about four people (A-D) who studied journalism at university. Then answer Question 9 (a)-(j). Studying journalism A Ines When I was considering what to study at university, my parents encouraged me to choose law.

Why you need to use statistics in your research

areas such as government, healthcare, business, and sport. 2. Inferential

(analytical) statistics makes inferences about populations (entire groups of people or firms) by analysing data gathered from samples (smaller subsets of the entire group), and deals with methods that enable a conclusion to be drawn from these data.

Reading

will use in your future studies What you put into the course will determine how much you get out of it. Obviously, if you want to improve your academic reading, it is essential to practise the skill. You should therefore prepare well for the sessions, as

well as participating actively in them. Course aims 1 Reading for a specific academic purpose

Customer experience - McKinsey & Company

the importance of establishing a vision to bridge the gap between board direction and front-line engagement; the key role of measurement systems that allow a company to hear the voice of its customers; and the essential link between customer experience and value creation that can elude even the best-intentioned efforts.
