**Student Nationalism in China, 1924-1949** Lincoln Li 1994-01-01 Li examines the critical role of the younger generation as a political force, influenced by the cultural and ideological debates during China's reunification in 1927 and again in 1949. He focuses on key organizations to illustrate how political parties turned explosive, national feelings into an organized political force. Li shows how Chinese student nationalism, despite its radical image, represents a prominent feature of continuity in Chinese sociopolitical

culture.

**Environmentalism and Political Theory** Robyn Eckersley 1992-01-01 This book provides the most detailed and comprehensive examination to date of the impact of environmentalism upon contemporary political thought. It sets out to disentangle the various strands of Green political thought and explain their relationship to the major Western political traditions. Environmentalism and Political Theory represents the consolidation of a new field of political inquiry that is destined to become an increasingly important

component of political studies and political reporting worldwide. An interdisciplinary study that builds bridges between environmental philosophy, ecological thought, and political inquiry, this book employs a range of new insights from environmental philosophy to outline a particular Green political perspective.

### **Encountering the Goddess**

Thomas B. Coburn

1991-01-01 Coburn

provides a fresh and careful translation from the Sanskrit of this fifteen-hundred-year-old text. Drawing on field work and literary evidence, he illuminates the process by which the Devi-Mahatmya has attracted a vast number of commentaries and has become the best known Goddess-text in modern India, deeply embedded in the ritual of Goddess worship (especially in

Tantra). Coburn answers the following questions among others: Is this document "scripture?" How is it that this text mediates the presence of the Goddess? What can we make of contemporary emphasis on oral recitation of the text rather than study of its written form? One comes away from Coburn's work with a sense of the historical integrity or wholeness of an extremely important religious development centered on a "text." The interaction between the text and later philosophical and religious developments such as those found in Advaita Vedanta and Tantra is quite illuminating. Relevant here are the issues of the writtenness and orality/aurality of 'scripture,' and the various ways by which a deposit of holy words such as the Devi-

Mahatma becomes effective, powerful, and inspirational in the lives of those who hold it sacred.

### **Disappearing Persons**

Benjamin Kilborne

2002-01-01 In

*Disappearing Persons*, psychoanalyst Benjamin Kilborne looks at how we control appearance as an attempt to manage or take charge of our feelings. Arguing that the psychology of appearance has not been adequately explored, Kilborne deftly weaves together examples from literature and his own clinical practice to establish shame and appearance as central fears in both literature and life, and describes how shame about appearance can generate not only the wish to disappear but also the fear of disappearing. A hybrid of applied literature and psychoanalysis,

*Disappearing Persons* helps us to understand the roots of the psychocultural crisis confronting our increasingly appearance-oriented, shame-driven society.

**Women's Secrets** Helen Rodnite Lemay 1992-10-14 Women's Secrets provides the first modern translation of the notorious treatise De secretis mulierum, popular throughout the late middle ages and into modern times. The Secrets deals with human reproduction and was written to instruct celibate medieval monks on the facts of life and some of the ways of the universe. However, the book had a much more far-reaching influence. Lemay shows how its message that women were evil, lascivious creatures built on the misogyny of the work's Aristotelian sources and laid the groundwork for

serious persecution of women. Both the content of the treatise and the reputation of its author (erroneously believed to be Albertus Magnus) inspired a few medieval scholars to compose lengthy commentaries on the text, substantial selections from which are included, providing further evidence of how medieval men interpreted science and viewed the female body.

**Studies in the Zohar**

Yehuda Liebes 1993-01-01  
This book deals with the "Book of Splendor" (Sefer ha-Zohar), the greatest achievement of Kabbalah and one of the most influential sources of Western mysticism. This book offers a new interpretation of the Zohar, analyzing both its theoretical content and its historical context; it also brings the theory and the history together by indicating the personal

and autobiographical elements in the Zohar's teachings. The author delves into the issues of the messianic elements of the Zohar, the way it was written, and its relationship to Christianity, Gnosticism, and Talmudic literature.

**Strengthening Forensic Science in the United States** National Research Council 2009-07-29  
Scores of talented and dedicated people serve

the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits

of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration.

Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and

attorneys, and forensic science educators.  
*Global Civil Society in International Lawmaking and Global Governance*  
Barbara Woodward  
2010-05-17 Drawing upon 'global governance,' 'global civil society' (GCS) and 'international lawmaking' scholarship and presenting studies of GCS practice in international lawmaking processes, including treaty-making, conferences, international organisations and adjudicatory mechanisms, this book comprehensively re-evaluates GCS's role in public international lawmaking.

The Stop David Appelbaum  
1995-01-01 The central axis of The Stop is the secret turn of awareness by which we pass from ignorance to knowledge. The stop, then, is the spark of initiation, intense enough to arouse

consciousness from its slumber and to motivate the difficult journey to a higher understanding. To stop is to begin a movement toward consciousness.

Radio Mystery and Adventure Jim Harmon  
1992 From the 1920s to the 1950s, radio was the entertainment source for millions. Two of the primary themes of radio serials were mysteries and adventure. This is a detailed analysis of the important programs in these genres--"Jack Armstrong, " "The Green Hornet, " "Sergeant Preston, " "Tom Mix, " and more. Each entry includes type of series, broadcast days, air dates, sponsors, network, cast and production credits, and a comprehensive essay. When, as often happened, the series landed in other media, that is examined as well.

**Inside the Green Lobby**

Bernard C. Melewski  
2022-02-01 A veteran environmental lobbyist reveals the behind-the-scenes struggles to address threats to the future of New York's Adirondack Park. Inside the Green Lobby recounts the behind-the-scenes efforts, both at the State Capitol in Albany and the halls of Congress, of a lobbyist for a major environmental advocacy group. Bernard C. Melewski worked to save the six-million acre Adirondack Park from twin threats to its future: the devastating damage from acid rain and the sudden breakup of massive private land holdings that had been intact for almost one hundred years. Starting with the political uproar ignited by the recommendations of New York Governor Mario Cuomo's 1990 Adirondack Park Commission, and the

rejection by the public of a new environmental bond act, Inside the Green Lobby documents the events that led to the sudden acquisition by New York State of tens of thousands of acres within the park that the public now enjoys. From strategy sessions with lobbyists to private meetings with legislators, governors, members of Congress, and even the President of the United States, Melewski recounts engaging and entertaining stories that introduce how environmental advocates successfully pursue legislative and policy change. Bernard Melewski is an environmental attorney, organic farmer, and farm winery owner in Altamont, New York.

*The Paradox of Power and Weakness* George Kunz 1998-01-01 Offers an alternative paradigm for psychology, one that reflects Levinas's criticism of a self-centered notion of identity. Reveals the secret of an "authentic" altruism through a phenomenology of both power and weakness, and of the paradoxes of the

weakness of power and the power of weakness. **The Masters Revealed** K. Paul Johnson 1994-01-01 **Belief about the Self** Neil Feit 2008-07-24 This book offers a defense of the Property Theory of Content, according to which properties rather than propositions are the contents of our beliefs, desires, and other cognitive attitudes. New arguments for the theory are offered, objections are answered, and applications to problems in the philosophy of mind are discussed.

*The Time of Memory* Charles E. Scott 1999-01-01 Explores the mythology of memory, involuntary memory, and the relation between time and memory in the context of questions prominent in contemporary thought.
